

Victoria College Preparatory School

Jersey, Channel Islands, JE2 4RR

R. Price
Headmaster
B.Sc, M.Phil

21st February 2014

This half term has been a very busy one. All three classes have completed their Design Technology projects and we are very grateful for the fantastic parental and grand- parental help! A good time was had by all and a wonderful array of working moving toys now adorn our classrooms. We are enjoying our water topic and are finding out about rivers and coasts. We are looking forward to seeing War Horse after half term. After half term we will be handing out instructions and starter packs for our famous eggmobiles. We are very much looking forward to an eggciting eggtraordinary egg race! We had great fun making our adverts and you will get the opportunity on Open Day to watch our finished adverts!

In Science we will be starting our study of Earth, Moon and Sun and completing our life cycle studies. We await the arrivals of our caterpillars and hope to have emerging butterflies later in the term.

The next Bude payment is due on **March 3rd -£100** and the final payment is due at the end of **April**. We would be grateful if you could ensure your son's stationery is checked and restocked ready for next half term.

Thank you. Have a restful half term.
